MODULAR ROOM SOLUTIONS

Tailored Privacy *Without* Construction

Unique privacy solutions for unique spaces. SnapCab® creates custom modular rooms designed to fit your needs, without the disruption of traditional construction.

COMPANY

Built on experience. Designed for flexibility.

SnapCab is a North American manufacturer with over 40 years of experience in architectural interiors. Originating in the elevator industry, we developed a patented modular paneling system known for its quality, adaptability, and ease of installation.

Today, that same system powers our fully customizable modular room solutions — designed to any size, style, or purpose. Whether you need specific finishes, integrated furnishings, accessibility features, or advanced tech components, we build environments around your needs.

Our collaborative, people-first approach has earned the trust of Fortune 500 companies and small businesses alike. No matter the scale, our rooms are built to perform, adapt, and last.

CUSTOM MODULAR ROOM SOLUTIONS

Rethink What Privacy Can Be

When compared to traditional build-outs and standard phone booths, SnapCab offers the best of both worlds - Custom Modular Rooms - offering something entirely different: true design freedom, speed without sacrifice, and adaptability built in.

Explore how SnapCab outperforms the ordinary and elevates the entire approach to space.

The Benefits

Customizable to Your Space

Fully tailored – Dimensions, layout, finishes, lighting, acoustics packages

Speed of Installation

Fast install (often less than 1 day)

Disruption to Workflow

Minimal disruption

Designed for Specific Industry Applications

Can be customized for different industry sectors and case uses

Modular Flexibility

Component modular design allows for easy updates & upgrades

Environment-Specific

Excellent acoustics, and tiered acoustic options available

Brand Graphics & Finishes

We work with COMs, custom graphics, and more

Lifecycle Value

Durable, serviceable, future-proof

Sustainability

Built to last, relocatable, optimized high-yield low-waste

Cost Control

Predictable pricing, with high long-term value

Support & Serviceability

Support and maintenance available (with 10 year warranty)

Movability

Movable and relocatable

North American

Manufactured and materials sourced

Approximate Cost

\$10K - \$22K+ USD

Standard Phone Booths

Traditional Build-Out

X Fixed sizes and layouts

✓ Customizable (but expensive and slow)

✓ Fast install (often less than 1 day)

X Weeks-months (permits, trades, inspections)

✓ Minimal disruption

X High – Dust, noise, delays, downtime

X Typically for office use only

✓ Can be designed for specific uses

X Usually not designed to be updated or upgraded

X Permanent

X Fixed acoustics with limited options

✓ Customizable acoustics, but complex and expensive

X Generic designs with limited or no options

✓ If custom designed

X Short lifespan – Often discarded

/ Varied – Can become obsolete

/ Varied – Often low quality material

/ Varied – High waste, scrap, often unknown materials

✓ Lower upfront cost

X Prone to overruns & delays

✓ Support and maintenance available (usually a 2-5 year warranty)

/ Varied by contractor

✓ Movable and relocatable

X Permanent

/ Rare – most made offshore

/ Varied – Usually unknown

\$6K - \$27K+ USD

\$13K-\$35K+ USD

For Architects & Interior Designers

Custom Without Complication

Specify every element — from size to materials — to fit your design intent. No fixed templates. No compromises.

Fast, Clean, and Predictable

Installed in a day. No permits. Minimal trades. No disruption. Meet your deadlines without sacrificing experience.

Designed for Real-World Use Cases

From private focus pods to collaborative spaces or specialized industry needs — SnapCab adapts to your needs.

Modular That Actually Evolves

Upgrade, reconfigure, relocate. SnapCab is built for change — and built to last.

Acoustics That Work — Beautifully

Tiered sound privacy packages engineered for performance, integrated seamlessly with your vision.

Material & Branding Freedom

Work with COMs, add client branding, or specify any finish. If you can design it, we'll help make it real.

Sustainable by Nature

Low-waste production, durable construction, and long-term usability — everything your spec wants in a sustainable solution.

Support That Stays With You

10-year warranty. Local service.
A partner that's here for the long haul.

TAILORED TO FIT

Custom Sizes for Your Unique Office

Specify the exact width, depth, and height to match the unique requirements of your space. This level of flexibility allows you to create an environment that integrates seamlessly into its surroundings while maximizing functionality.

DESIGN WITH OUR EXPERTS

Specify *any dimensions* that fit the needs of your space.

The many finish options available allowed us to select finishes that coordinated well with the existing space, making them part of the overall office design and not looking like an afterthought.

TPG ARCHITECTURE

Sector-Specific *Solutions*

Experience exceptional sound privacy while tailoring your design for seamless integration into your space.

Corporate Workplaces

Educational Institutions

Healthcare Facilities

Government & Public Sector

Retail & Hospitality

Manufacturing & Warehouses

Corporate Offices

Open-concept offices often sacrifice privacy for flexibility. SnapCab pods bring balance — offering sound-insulated spaces for calls, deep work, or team meetings without costly renovations. Designed to integrate seamlessly into your space, they empower your team to work smarter.

- ✓ Custom finishes
- ✓ Built to your specs
- ✓ Customizable dimensions
- ✓ Lighting, ventilation, & furniture options
- ✓ Environment specific custom sound packages
- ✓ ADA-compliant designs available
- ✓ Easy to move and reconfigure
- ✓ Optimal for podcasting and content creation

Healthcare

Hospitals and clinics need secure, quiet spaces for telehealth sessions, provider calls, family consultations, and staff breaks. SnapCab pods offer comfort, discretion, and hygiene – without interrupting patient care.

- ✓ Anti-microbial finish options
- ✓ Integrated HEPA filtration
- ✓ HIPAA-friendly layouts
- ✓ Customizable dimensions
- ✓ Can be designed to your specs
- ✓ Lighting, ventilation, & furniture options
- ✓ Environment specific custom sound packages
- ✓ ADA-compliant designs available
- ✓ Easy to move and reconfigure

Education

SnapCab provides calming, distraction-free environments ideal for focused learning, one-on-one support, and inclusive education practices. Whether used for quiet testing areas, speech therapy, mental health counseling, or small group instruction, our pods empower educators to reach students in ways that respect their individual learning styles.

- ✓ Perfect for libraries, study hubs, and testing areas
- ✓ Supports neurodiverse learners
- ✓ Ideal for IEP accommodations and OT sessions
- ✓ Safe, tamper-resistant, and easy to clean
- ✓ ADA-compliant designs available
- ✓ Accommodates digital learning tools
- ✓ Sound-dampened for music practice
- ✓ Easy to move and reconfigure

Retail & Hospitality

Perfect for hotel lobbies, business centers, lounges, and event spaces. SnapCab pods enhance hospitality environments with beautifully crafted, functional spaces that provide comfort, privacy, and flexibility. From boutique hotels to bustling convention centers and co-working lounges, our pods offer quiet, professional environments for guests, attendees, and remote workers alike.

- ✓ Premium finishes and customizable exteriors
- ✓ Branded finishes & graphics
- ✓ Easy installation without permits
- ✓ Comfort-forward interiors for guests and clients
- ✓ Lighting, ventilation, & furniture options
- ✓ ADA-compliant designs available
- ✓ Easy to move and reconfigure

Government & Public Sector

From municipal buildings and libraries to courtrooms and correctional facilities, SnapCab pods offer secure, flexible spaces that support confidential conversations, hybrid work, public service, and rehabilitation programs. Our pods are built to meet high safety and acoustic standards, making them ideal for environments where discretion, durability, and trust are essential.

- ✓ Court-adjacent uses: remote hearings, legal consultations, and jury privacy
- ✓ Correctional virtual remand booth applications
- ✓ Public sector offices: quiet spaces for focused work, meetings, or citizen support
- ✓ Customizable dimensions
- ✓ Can be designed to your specs
- ✓ Safety compliant with anti-tamper options and durable construction
- ✓ Environment specific custom sound packages
- ✓ ADA-compliant designs available
- ✓ Easy to move and reconfigure

Manufacturing & Warehouses

In high-traffic, high-noise environments like factories, plants, and warehouses, SnapCab pods provide durable, reliable spaces for supervisors, engineers, and operations teams to step away for planning, calls, or coordination – without leaving the floor.

- ✓ Noise-reduction panels for loud environments
- ✓ Built tough to handle dust, traffic & impact
- ✓ Dust- and vibration-resistant design
- ✓ Modular components - easy to repair or update
- ✓ Easy to move and reconfigure

Sustainability

At SnapCab, sustainability and responsible manufacturing are at the core of our culture. We embrace lean manufacturing principles to reduce waste and create high quality, long-lasting products without planned obsolescence. Our workspace products meet the highest standards for wood products and include significant recycled and recyclable content.

We partner with vendors who share our commitment to environmentally friendly practices. Instead of wasteful crating, our products are shipped partially assembled, reducing plastic packaging and fuel emissions in logistics.

Environment-Specific Sound Privacy Packages

Sound privacy needs vary significantly based on the environment. SnapCab provides tailored sound packages to ensure the privacy of that space is met effectively.

SnapCab modular rooms offer customizable acoustic packages – including sound masking, noise-reducing materials, and adaptable wall systems – engineered to meet specific STC requirements across a range of environments, from offices and schools to healthcare and high-security settings. These solutions address a range of requirements, such as typical open office environments, audio recording booths and highly confidential government and military solutions.

CRAFTED QUALITY

Built to Last

Our modular rooms are constructed with the highest quality, sustainable materials, and are easily updatable to stand the test of time.

- ✓ Heavy-gauge aluminum frames
- ✓ Updatable wall panels
- ✓ Tempered safety glass
- ✓ Double-sealed sound-dampening door
- ✓ Top-of-the-line, high-load phenolic casters
- ✓ 10 year structural warranty
- ✓ North-American manufactured

Safety

Safety is top priority in all of our products. We ensure peace of mind to occupants by building private, focused spaces that comply with stringent safety standards. Our pods are UL Listed, seismic certified, fire-rated, CARB Phase II compliant and air quality tested to ensure your safety at all times.

- ✓ Fire Safety Solution
- ✓ UL Certification
- ✓ Seismic Certified
- ✓ Carb Phase II Compliant
- ✓ Safety Break Away Glass

SEISMIC

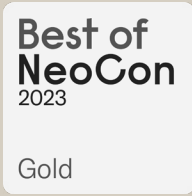

According to a University of California study, *open office workers experience 50% more interruptions than those in private offices*, leading to decreased productivity and increased stress. To support productivity and well-being, it's more important than ever to incorporate effective measures in office design.

UNIVERSITY OF CALIFORNIA

Popular *Configurations*

Experience exceptional sound privacy while tailoring your design for seamless integration into your space.

Compact Privacy

Designed to provide a private, soundproof space for phone calls or video conferences, these rooms help minimize disruptions in busy environments. Ideal for open-plan offices or public areas with high noise levels, they offer a quiet retreat without occupying much floor space.

Single

The Single is designed for standing use, offering a small space that packs a punch. It is perfect for short phone calls and quick tasks that require a quiet space. Including the Single in any workplace layout will be welcomed by the user and their colleagues alike.

Exterior 43.5" w. x 34" d. x 90" h.

Interior 37.5" w. x 31" d. x 78" h.

For a quick project, focused task, or a temporary work arrangement, the Focus offers a secluded and distraction-free setting that enables individuals to accomplish their work effectively and efficiently.

Exterior 43.5" w. x 46" d. x 90" h.

Interior 37.5" w. x 40" d. x 78" h.

Focus

Collaborative Spaces

Modular meeting rooms provide a private, enclosed space for meetings and discussions that require a higher level of privacy than what open-plan office or shared spaces can offer.

Meet 2

An ideal space for two individuals to meet confidentially, offering maximum privacy without occupying a significant portion of a floor plan.

Exterior 77" w. x 35.5" d. x 90" h.

Interior 70.5" w. x 30" d. x 78" h.

This room can accommodate up to four people, creating a perfect setting for meetings and focused work.

Exterior 77" w. x 53" d. x 90" h.

Interior 71" w. x 47" d. x 78" h.

Meet 4

Meet 6

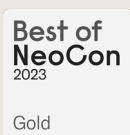

An ideal workspace for collaborative sessions, the Meet 6 seats up to 6 people. Its spacious interior comfortably accommodates the entire team, allowing for productive discussions.

Exterior 77" w. x 77" d. x 90" h.

Interior 71" w. x 71" d. x 78" h.

Private Offices

These rooms offer a private, distraction-free space for focused work and meetings, while also providing flexibility and adaptability in office design and layout.

An ideal solution for video conferencing, the LinkPro seamlessly integrates your preferred technology without any hidden maintenance fees or planned obsolescence. Experience the benefits of dimmable face lighting and a height-adjustable desk for ergonomic comfort.

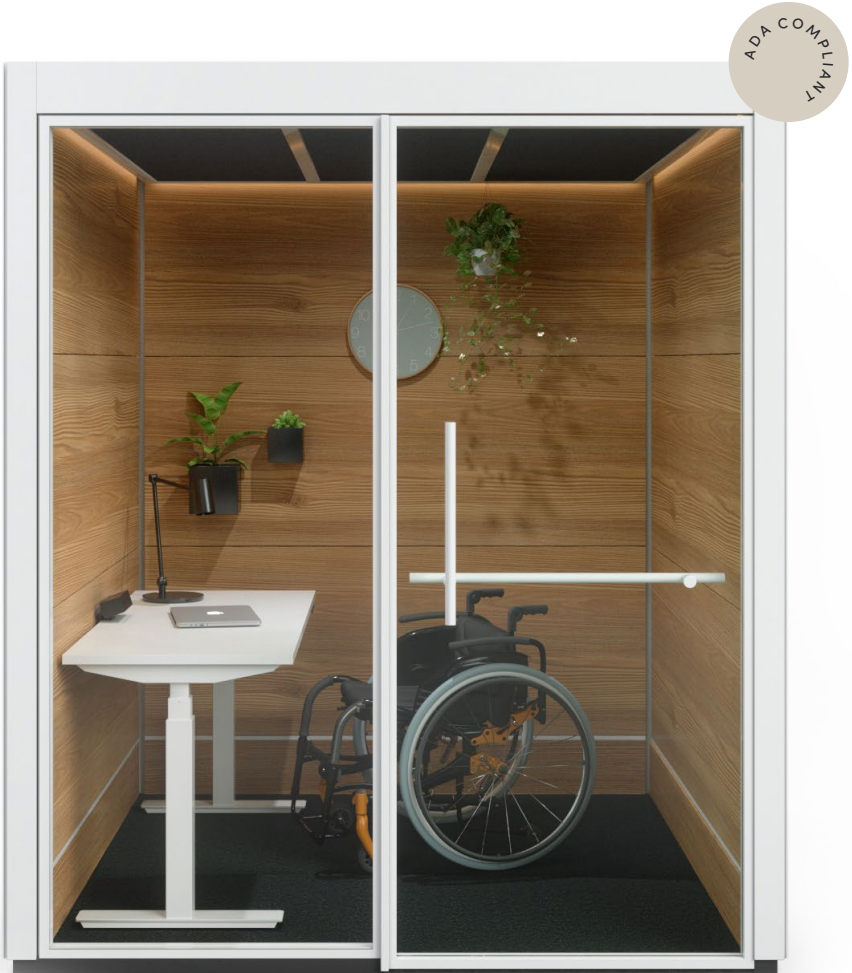

Exterior 60" w. x 35.5" d. x 90" h.

Interior 54" w. x 29.5" d. x 78" h.

LinkPro

Access

Offering all of the features and benefits of a traditional office while incorporating accessibility elements to ensure equal opportunities for all users. Designed barrier-free with a wider entry, horizontal door pull, 60-inch turning radius and accessible lighting controls, the Access meets ADA and ACA requirements.

Exterior 77" w. x 77" d. x 90" h.

Interior 71" w. x 71" d. x 85" h.

Designed to offer individuals a private and productive office environment within a larger office setting. The Work provides the flexibility to work independently, engage in confidential conversations, or conduct meetings without the need for a traditional office setup.

Exterior 77" w. x 53" d. x 90" h.

Interior 71" w. x 47" d. x 78" h.

Work

Work+

Experience a spacious and productive office environment within a larger office setting with the Work+. This expanded workspace provides flexibility for independent work, confidential conversations, and meetings without traditional office constraints.

Exterior 77" w. x 77" d. x 90" h.

Interior 71" w. x 71" d. x 78" h.

OUR LARGEST POPULAR LAYOUT

Introducing SnapCab's *Huddle Room*

The SnapCab Huddle welcomes everyone with spacious, accessible design and premium materials that feel as reliable and comfortable as a perfectly tailored outfit. Soft, adjustable lighting highlights your best self on every video call, while switchable glass gives you instant control over your privacy—visually and acoustically. It's a space designed to help you focus, connect, and perform at your best.

A Space That Brings Out Your Team's Best

- ✓ Acoustic privacy that keeps distractions out
- ✓ Switchable glass for visual privacy on demand
- ✓ Spacious, wheelchair-accessible layout
- ✓ Writable whiteboard walls for brainstorming
- ✓ Flattering, dimmable lighting For confidence on camera
- ✓ Optimized lighting and seamless video integration
- ✓ Premium materials that feel comfortable and professional
- ✓ Flexible, reusable design that moves with you

Huddle

A Modern Meeting Space That Works When You Do

The SnapCab Huddle offers a private, flexible meeting space for 4–6 people—perfect for face-to-face collaboration or group video calls, without the hassle of construction.

Built for true privacy, it combines sound-blocking walls with switchable glass that changes from clear to opaque instantly, giving you control over your environment.

Premium Design, Smart Investment

With its spacious design and high-end features, the Huddle delivers more than just function—it offers a premium experience at a fraction of the cost of a built-in meeting room. And compared to standard pods on the market, the Huddle offers significantly more—without the higher price tag. It's long-term value and flexibility, without compromise.

Exterior 96" w. x 96" d. x 90" h.

Interior 72" w. x 72" d. x 85" h.

Standard Features

- 1 Motion Sensor**
Activates fans and lighting.
- 2 Safety Break-Away Glass Front**
- 3 Diffused, dimmable LED Perimeter Lighting**
- 4 Heavy Gauge Aluminum Sub-Structure**
- 5 Door**
3/8" tempered glass, fully framed, with double acoustic seals.
The door can be ordered as left-hand or right-hand swing
and comes with an 18" tall door pull.
- 6 Power Bar**
Mountable power bar with (2) 110 outlets
and (2) USB-A & (2) USB-C outlets.
- 7 Power Cord**
Plug and play design with a 6' long cord that plugs into a standard
outlet. Each plug has a built in circuit breaker with reset.
- 8 High-load Phenolic Casters**
Made for easy relocation.

Perimeter Lighting

Our standard soft LED perimeter lighting fosters a calm, focused environment and enhances user comfort — a thoughtful upgrade from harsh overhead lighting that often creates unflattering shadows and visual strain. Customers can also specify their preferred lighting to suit the needs of their space.

Convert your concepts into reality.

CASE STUDY

Fractal Workspace

Fractal Workspace incorporated SnapCab pods, including the LinkPro, Focus, and Work+ pods, into their open office to create a flexible and adaptable working environment. These pods are a favorite among the workplace's clientele, offering the flexibility needed for independent work, confidential conversations, and meetings without the constraints of a traditional office. Fractal Workspace prioritizes community, connection, and hospitality, creating a positive and inclusive environment that fosters collaboration and personal growth.

- ✓ Custom Finishes

I sat down with Glenn and his team and they were amazing to work with. We use SnapCab pods in our open office spaces and our members love it!

DAVID ROBINSON, FOUNDER
FRACTAL WORKSPACE

CASE STUDY

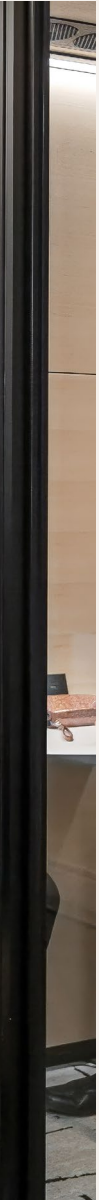

CAA North & Eastern Ontario Headquarters

To address the challenges of their open-concept office in Lansdowne, CAA North & Eastern Ontario partnered with SnapCab to enhance functionality and employee well-being. The introduction of customizable SnapCab pods—featuring real wood veneer walls, acoustic felt accents, and resi-mercial carpets—transformed underutilized areas into inviting spaces for focused work and private meetings. These pods not only mitigated acoustic disruptions but also added warmth to the office environment, aligning with CAA's commitment to a dynamic and collaborative workplace. The flexible design allowed for efficient use of space, including custom-sized pods fitting beneath staircases, exemplifying innovative solutions to spatial constraints. As a result, the pods quickly became favored spots among employees, demonstrating the success of integrating thoughtful design with practical needs .

✓ Custom Finishes ✓ Podcasting ✓ Video Conferencing

“

We had this big space with stairs and lots of glass and people didn't sit here, and we couldn't figure out why. All of a sudden we put the SnapCabs in, and people start sitting in them and working in them.

JEFF WALKER, PRESIDENT & CEO
CAA NORTH & EASTERN ONTARIO

CASE STUDY

Mobile Healthcare

The SnapCab Work+ was adapted into a mobile exam room for a COVID-19 Assessment Center, offering private and comfortable treatment spaces for patients. Its variant, the SnapCab Care, is a self-contained office with HEPA filtration, soundproofing, and one-way glass for privacy. It includes the SnapCab Connects wall system, accommodates gurneys, and ensures privacy for patients. Designed for flexibility, the unit is mounted on casters for easy relocation. Post-COVID-19, the this modular room was re-purposed within the hospital for other needs.

- ✓ Custom Graphics

CASE STUDY

Video Remand Booths

SnapCab's custom Video Remand Booths offer a secure, soundproof solution to a critical challenge in the Canadian justice system: ensuring individuals in custody can participate remotely in court hearings without delays or missed appearances. These booths combine reinforced steel construction with superior 54 STC-rated sound isolation and integrate seamlessly with video conferencing systems. The quick one-day installation minimizes disruption while significantly reducing transportation and security costs for courts. By providing a fair, timely, and accessible way to conduct hearings, SnapCab is helping modernize justice delivery.

Damage caused by misuse of products will not be covered under these warranties. The term "misuse" may include, but is not limited to, altering components in any way i.e. drilling holes, installing mounting brackets and hangers, etc., and improper cleaning procedures i.e. using excessively strong cleaners that may damage material finishes.

Resources for You

Unlock the potential of your design vision with our extensive collection of 2D/3D files, specifications, and product information. Access downloadable files to streamline your workflow, and rest assured, your product specialist can help with anything you need to ensure a successful project and a happy customer.

Here for Your Success

Quality and Service Over Everything

Our commitment to quality and exceptional service makes our products an investment in reliability and durability, prioritizing value over being the cheapest. We're here to support you with inquiries, specific documents, and design assistance for seamless project proposals. Recognizing the significance of both quality and service, we strive to provide a high value product coupled with excellent service.

Managing a design project is like conducting an orchestra, with numerous components and stakeholders. That's why we offer a hassle-free experience and a dependable product, ensuring we help you maintain your excellent client relationships.

Dedicated Product Specialists

Your journey with us is a collaborative one. From the initial idea to the final execution, you will have a dedicated product specialist and team committed to supporting you at every stage.

Responsive Communication

Count on our swift and responsive communication; we assure you of standard quotes within 24 hours or less. Recognizing that changes may arise, we stand ready to accommodate them. Feel free to request adjustments to your quote, and we will be more than happy to assist.

Material Suggestions to Expedite Lead Times

Our team of product specialists possesses in-depth knowledge of available options, enabling us to provide valuable suggestions and alternative solutions to meet your client lead times. Elevate your project timelines with our expert guidance, as our specialists are well-versed in recommending alternatives tailored to your specific lead time requirements.

Pre-Installation Best Practice Meeting

Minimize installation hassles with our pre-installation best practice meetings. We can collaborate with your preferred installation company to ensure a smooth and flawless installation process. We are here to ensure installs go smooth without a hitch with providing pre-installation meetings with your preferred install company.

Virtual Presentation and Factory Tour

Experience our products up close through personalized virtual presentations, coupled with an exclusive tour of our manufacturing facility.

“Customer experience has been nothing but exceptional – probably the best of any manufacturer we’ve dealt with.
